Outlook for the day

The market is expected to see a muted opening today tracking subdued global market cues. Asian shares were mixed in early trade as markets await events due later this week for a better gauge of the global interest-rate outlook. US stocks ended with modest losses on Monday, as the focus shifted after last week's AI-fueled rally to upcoming economic data that could affect the timing of the Federal Reserve's expected interest rate cut. Oil prices rose in Asian trade on Tuesday, extending the prior session's gains as fears of tighter supplies- amid continued disruptions in global shipping activity and a conflict in the Middle East- sparked a strong recovery in prices this week. As per provisional figures, Foreign Institutional Investors (FIIs)/ Foreign Portfolio Investors (FPIs) sold shares worth net Rs.285.15 crore and Domestic institutional investors sold shares worth net Rs.5.33 Crore on 26th February 2024.
