29.59%. Minority interest was nil in both the periods. Net profit attributable to owners of the company decreased 62.79% to Rs 1,362.00 crore.

### Business Segment Performance in Q3 FY23 (vs Q3FY22)

**Novelis:** Total shipments of flat rolled products (FRPs) were at 908 Kt in Q3 FY23 vs 930 Kt in Q3 FY22, down 2% YoY, on account of inventory reduction by can customers, partially offset by higher shipments of automotive and aerospace products.

Novelis' revenue in Q3 FY23 stood at \$4.2 billion (vs \$4.3 billion), down 3% YoY, driven by lower average aluminium prices and lower shipments in Q3 FY23. Novelis reported an EBITDA of \$341 million (\$506 million in Q3 FY22, down 33% YoY) primarily due to lower shipments, higher inflationary pressures, less favourable metal benefits from recycling, unfavourable foreign exchange, partially offset by higher pricing, higher cost pass through to customers and a favourable product mix. Novelis' adjusted EBITDA per ton stood at \$376 in Q3 FY23 (vs \$544 in Q3 FY22).

**Aluminium:** Upstream revenue was Rs 8,046 crore in Q3FY23 vs Rs 8,019 crore in the prior year period. Aluminium Upstream EBITDA stood at Rs 1,591 crore in Q3FY23, compared with Rs 3,309 crore for Q3FY22, down 52% YoY, impacted by higher input costs and unfavourable macros. Upstream EBITDA margins were at 19.8% and continue to be one of the best in the global industry.

Aluminium Downstream revenue was Rs 2,647 crore in Q3FY23 vs Rs 2,885 crore in the prior year period. Sales of Downstream Aluminium stood at 91 Kt vs 86 Kt in Q3 FY22, up 6% YoY. Aluminium Downstream EBITDA stood at a record Rs 157 crore in Q3FY23, compared with Rs 127 crore for Q3FY22, an increase of 24% YoY, primarily due to better pricing of downstream products. EBITDA per ton for Aluminium Downstream stood at \$210 in Q3FY23 vs \$196 in Q3 FY22, an increase of 7% YoY.

**Copper:** Revenue from the Copper Business was Rs 10,309 crore this quarter, up 1% YoY, on account of higher volumes in Q3 FY23. EBITDA for the Copper Business was at Rs 546 crore in

Q3 FY23 compared to Rs 390 crore in Q3 FY22, up 40% YoY, on the back of stable operations, higher volumes of CC rods, better TC/RCs and realisations.

Copper cathode production was at 104 Kt in Q3 FY23 (vs 102 Kt in Q3 FY22) while copper rod production was 91 Kt in Q3 FY23 (vs 77 Kt in Q3 FY22). Overall copper metal sales were at a 109 Kt (vs 110 Kt in Q3 FY22). Copper Continuous Cast Rod (CCR) sales also touched a record 88 Kt in Q3 FY23 (vs 71 Kt in Q3 FY22), up 24% YoY supported by improved market conditions

## Management Comments

**Mr. Satish Pai, Managing Director, Hindalco Industries, said:** "We are seeing core industries worldwide being buffeted by macro-economic and inflationary cost pressures, yet we delivered a strong operational performance with higher volumes across India business segments.

Though the India Aluminium upstream business EBITDA came under pressure from the surge in input costs and lower realisations, this was partially offset by higher volumes. The India Aluminium downstream business segment delivered a higher EBITDA YoY, due to higher volumes and better pricing. The Copper business registered a 40% growth in EBITDA driven by higher volumes and better realisations, supported by a robust domestic demand. Novelis witnessed unprecedented inflationary pressures, unfavourable foreign exchange rates and lower shipments; this was partially offset by higher pricing and a favourable product mix.

Despite the hits of this quarter due to external factors, we believe the long-term story remains positive backed by our strong balance sheet and resilient business model."
